Professional Summary

Data Science and Analytics Professional with 1+ year of experience delivering data-driven solutions in a SaaS environment. Skilled in SQL, PL/SQL, Excel, and dashboard development, with hands-on experience across the analytics lifecycle including stakeholder requirement gathering, data cleaning, validation, and KPI reporting. Proven ability to transform complex datasets into actionable insights and automate reporting workflows to support business decision-making.

Skills

Core Skills

- | | | |
|-------------------------|-----------------------------|----------------------------------|
| ✓ Data Analysis | ✓ KPI Tracking | ✓ Data Cleaning & Validation |
| ✓ Dashboard Development | ✓ Exploratory Data Analysis | ✓ Data Visualization |
| ✓ Requirement Gathering | ✓ Performance Analysis | ✓ Root Cause Analysis |
| ✓ Stakeholder Reporting | ✓ Data Governance Basics | ✓ Cross-functional Collaboration |

Technical Skills

BI Tools

Power BI | Tableau | Excel | Looker Studio

Languages

SQL | PL/SQL | Python | R

Databases

PostgreSQL | MySQL | SQL Server | ClickHouse

Tools

Git/GitHub | Docker | Apache Spark | AWS

Professional Experience

Aurochs Solutions — Business Analytics Associate

Pune, India

Mar 2026 – Present

- Currently working on two client projects in a SaaS environment, supporting end-to-end analytics and business solution delivery.
- Perform data cleaning and preprocessing to ensure data accuracy, consistency, and readiness for analysis and reporting.
- Collaborate with clients through the complete project lifecycle, from requirement gathering and understanding business needs to final sign-off.
- Develop and maintain interactive dashboards and analytical reports to support data-driven decision-making.
- Provide regular project updates and status communication to both internal teams and external stakeholders, ensuring alignment and timely delivery.

Fire AI — Associate Data Science

Mumbai, India

Mar 2025 – Oct 2025

- Led and successfully completed 10+ analytics and reporting projects across Pharma, Venture Capital, FMCG, Retail, and Marketing & Advertising sectors, delivering business-driven insights.
- Worked within a SaaS-based environment, contributing to data and reporting solutions delivered through a software-as-a-service product model aligned with client business requirements.
- Managed end-to-end stakeholder engagement including requirement gathering, daily client communication, and regular project status updates with both internal and external stakeholders.
- Performed data preparation activities including data cleaning, structuring, and exploratory analysis to ensure high-quality, analysis-ready datasets aligned with project objectives.
- Collaborated with stakeholders to finalize dashboard design, KPIs, and visualization layouts before developing interactive dashboards to support performance monitoring and decision-making.
- Conducted data validation by cross-verifying outputs with source systems, ensured accuracy of deliverables, and facilitated final client reviews and sign-off upon successful project completion.

- Developed machine learning models including churn risk prediction and time-series forecasting models to predict future sales trends and demand patterns for business planning.
- Built forecasting-driven solutions supporting inventory optimization, helping reduce overstocking and improving replenishment decision-making.
- Performed end-to-end data analysis including data preparation, exploratory analysis, feature engineering, and model evaluation to generate actionable business insights.
- Contributed to analytics dashboard development by translating model outputs and analytical findings into visual reports for stakeholder monitoring and decision support.

Projects

Marketing Analytics Report — Power BI, Excel

- Designed an interactive marketing analytics dashboard to monitor campaign performance across channels with drill-down analysis by region, campaign, and customer segment.
- Developed advanced DAX measures including MTD, YTD, ROAS, ROMI, CTR, and CPC to evaluate marketing effectiveness.
- Performed data modeling and transformation integrating multi-source marketing datasets for structured analysis.
- Enabled marketing budget optimization through performance trend analysis, dynamic filters, and interactive visualizations improving reporting accessibility.

Pharma Analytics Insights Dashboard — Power BI, Excel

- Designed a scalable star-schema data model and cleaned/transformed pharmaceutical sales and collection datasets for analytical reporting.
- Developed KPIs including MoM Growth, DRR, ROMI, and Collection Efficiency to monitor financial and operational performance.
- Built dashboards enabling stakeholders to track revenue health, operational metrics, and performance trends.
- Automated recurring reporting workflows reducing manual analysis effort and improving reporting efficiency.

UT Mart Sales Analytics Dashboard — Tableau, Excel

- Created interactive sales dashboards visualizing KPIs across regions and product categories with executive-friendly layouts.
- Implemented geo-maps and conducted trend analysis to identify geographical distribution and seasonal sales patterns.
- Applied filters and parameter controls enabling flexible and dynamic data exploration.
- Delivered actionable insights supporting business decision-making and sales performance evaluation.

Education

Master of Computer Applications (MCA) Sri Balaji University, Pune	2023 – 2025 CGPA: 8.56
Bachelor of Business Administration (Computer Applications) BBA(CA) Dr. D. Y. Patil ACS College	2020 – 2023 CGPA: 9.48

Certificates & Courses

- [Databricks Certified Associate Developer for Apache Spark 3.0](#)
- [IBM Data Analyst Professional Certificate](#)
- [SQL Advanced Certificate — HackerRank](#)
- [SQL Intermediate Certificate — HackerRank](#)

Soft Skills

✓ Stakeholder Communication	✓ Decision Support	✓ Time Management
✓ Analytical Thinking	✓ Team Collaboration	✓ Attention to Detail
✓ Data Storytelling	✓ Client Interaction	✓ Problem Solving
